EYE DEFECTS  
PRESBYOPIA OR OLD SIGHT

Loss of accommodation for close range—a natural condition. Does not affect distant vision. Begins about the age of forty years—sometimes earlier, rarely later. Corrected by use of a convex lens which aids the failing muscles of accommodation.

As we advance in years our bones become brittle, muscles unpliable, brains less active. In accordance with the laws of life, no organ is exempt from decay—yet one hears numerous comments on why so many glasses are worn, leading us to conclude that the majority think the organ of sight should never deteriorate. Those who have the best eyes throughout life are those who protect them at the proper time—when nature demands help. Pride has ruined more eyes than disease.

EYES EXAMINED. GLASSES FITTED.

New moon, Wednesday, January 28.

Times of the tide are taken from the United States Coast and Geodetic Survey tables.

The tides at Kahuku and Hilo occur about one hour earlier than at Honolulu.

Hawaiian standard time is 10 hours 30 minutes slower than Greenwich time, being that of the meridian of 157 degrees 30 minutes. The time whistle blows at 1:30 p. m., which is the same as Greenwich, 6 hours 6 minutes. Sun and moon are for local time for the whole group.

At two o'clock this morning the Pacific Mail liner Korea was out four days, nine hours, and fifteen minutes from San Francisco on what cable advices from San Francisco early in the week advised would be a record-breaking run. It is expected that the big vessel will be sighted early this morning and if she is whistled any time before noon Honolulu people will know that she has broken the record, which she holds even at the present time, for fast traveling between San Francisco and Honolulu.

ALAMEDA RUNS WITH FUEL OIL

The Oceanic Steamship Company's Alameda came into port on her first trip as an oil burner yesterday at noon, making the run down from San Francisco in six days. She had a small passenger list, but lots of freight in her, and her officers all express themselves as pleased with the new fuel and with the ship's behavior under the changed conditions.

"It was virtually a trial trip for her," said Chief Engineer Horgan, as the steamer came alongside the dock. "We had head winds and head seas the first four days out, and we bucked her right into them to see what she would do. She behaved splendidly. After that, we slowed her down a bit, but it is the best fuel I ever saw on a ship. I would be willing to work for less, rather than go back to coal. And it is as safe as anything can be. The oil tanks have water blankets, four feet thick, all around them, and it is impossible for fire to get to them in any way. Then, oil is much more economical. We let out fifteen men in the fire rooms because of it, and as a matter of fact one man could attend to the ship's fires now. Of course we have more men than that, but that would be enough in an emergency. All the fires could be put out in a few seconds, and could be started in as quick time. Any marine engineer will know what that means."

"The ship carries this trip, 4,024 barrels of oil, and will take on a supply here. Ordinarily she will carry enough to run her both ways and will not take fuel at this end."

Two Late Arrivals.

The Inter-Island steamer Iwalani reached port at 10:30 last night from Laupahoehoe. She had on board Frank Anderson, Sam Parker and Mr. and Mrs. S. F. Chillingworth.

The schooner Eclipso arrived last night from Maui and Molokai ports.

Bark Paul Isenberg Sailed.

The German bark Paul Isenberg sailed from Bremerhaven, Germany, on January 9 for Honolulu.

Three Fast Runs.

HONOLULU HAS EPIDEMIC  
OF SMALL BURGLARIES

Six Cases Were Reported Yesterday, Most of Them Thefts From Asiatics—Servant's Quarters Raided About Dinner Time.

There was an epidemic of burglaries and petty thefts reported to the police from yesterday noon to last last evening, most of the sufferers being Japanese and Chinese. Some of them were house servants, and it is apparent that the thieves waited until these were engaged in their duties at the dinner table before ransacking their quarters.

Yesterday a thief entered the servants' quarters in T. Clive Davies's premises at 5 o'clock in the afternoon and stole money and valuables belonging to a Chinese yard boy. The coachman saw a native boy leaving the premises at the rear and going in the direction of Napena falls carrying a box under his arm. When the Chinese owner of the box discovered his loss, the coachman telephoned a description of the boy to the police station.

Another burglary was reported to the police yesterday by a Chinese vegetable vendor, whose garden is in Kuakini street near the bridge. A sum of money and articles from the store were stolen. A Japanese doing business in the Wright block on King street reported that during the forenoon a thief had entered his place and stolen some clothing.

Between 6 and 7 o'clock last evening the Japanese servant, on James G. Spencer's place in Nuuanu valley was robbed of \$125 in gold, \$5 in silver, three suits of clothes, three pairs of shoes, a half dozen white shirts, two dozen col-

Islands. The bark R. P. Rithet, from Honolulu, made the passage in twelve days, and the barkentine S. N. Castle made it in eleven and one-half days. The bark Kaulani, from Lahaina, made the trip in thirteen days.

Ship Florence Not Spoken.

The news files received by the Alameda yesterday contain no reference as to the sighting of the over-due ship Florence by any of the various vessels that had arrived at San Francisco or Puget Sound ports.

Shipping Notes.

The schooner R. C. Slade sailed from Aberdeen on January 13 for Honolulu.

The bark C. D. Bryant, on a voyage from the Sound to Honolulu, passed Neah Bay on January 10.

The barkentine Fullerton left San Francisco on January 12 for Lahaina with a cargo of fuel oil.

The steamer City of Peking, from Honolulu and San Francisco, arrived at Yokohama on January 17.

The barkentine Kohala, which is to bring a cargo of coal from Newcastle to Honolulu, left Delagoa Bay on January 11 for Newcastle.

The steamer J. L. Luchenbach, of the new "round-the-horn" line, which is to oppose the American-Hawaiian line of freighters, arrived in San Francisco January 12, after a fifty-five days' voyage from New York. The other steamers that are to go on the run are the Lewis Luchenbach and the Macpherson.

lars, underclothing and a ladies' gold watch. The extensive wardrobe is accounted for by the fact that the Japanese was about to be married. The Japanese was busy about the house when the burglar or burglars entered his room.

Late in the day the residence of F. S. Camara, 1916 Punchbowl street, was ransacked. An old lady in the house saw two men lounging near by and became scared. She left the house and went to a neighbor's place, but in about ten minutes she returned and found the house had been hastily ransacked. There was missing from the front bed room three gold rings, on one "Philip S." \$5 in silver; one gold watch, and one gold chain bracelet. From the mauka bed room, \$7.50; and from the makai bed room one ladies' gold watch, two gold medals, and one gold scarf pin, were taken.

At 9:30 the police had reported to them the ransacking of a room in one of Mrs. Hendry's cottages on Pensacola street, near Lumahilo, occupied by two gentlemen named O'Brien and Smith, the latter an employe in a drug store. Clothing and all articles of any value were taken, and even the contents of an ice chest suffered from the raid.

Late last evening Deputy Sheriff Chillingworth raided places occupied by Porto Ricans and arrested five men who are suspected of having had some connection with the evening's robberies. The police think they can also secure two Porto Ricans whom they believe committed the robberies in Nuuanu Valley.

PUNA HAS A KAHUNA

Claims to Cure by the Laying on of Hands.

The Hilo Tribune publishes the following story of a revival of kahunaism at Puna:

It is reported that a kahuna is at work among the natives of the Puna district and that he has by the artifices and tricks of an old trade in these islands, preyed upon the believing natives of that vicinity to the sum of several hundred dollars. This kahuna, so it is reported, mixes modern quackery with the mysteries of an ancient Hawaiian institution. He claims to be licensed by the Board of Health and performs cures by the laying on of hands. It is reported that he treats consumption with an altogether new method. In a severe case, he said that the lungs had all disappeared except one small piece which is suspended by a string which permits it to swing like a pendulum in the chest. If this string stretches and permits this remnant of lung to touch the liver, death would instantly result. The kahuna had some powerful herbs, which if taken would shorten the string, thus insuring the life of the patient. The kahuna is liberal according to reports, making no charges but taking whatever his thankful patients are willing to give.

A Chinese Medicine.

Wu Ting-fang is fond of relating a story about a Chinese doctor who didn't satisfy his patient. The sicker the patient grew, the more indignant his friends became at the unsuccessful physician. At last, when the sick man was in the final stage and death was imminent, the relatives laid violent hands on the unfortunate doctor—and, tying him up to a tree, started to administer a smart beating. But, while his assailants were looking for a stick with which to beat him, the doctor freed himself, and jumping into the river swam to safety. When he reached home he found his son, who was studying to be a physician, poring over a book on medicine. "Put it up, put it up; shut it up," said the doctor, grimly: "the first requisite of a doctor is to know how to swim, not to cure."

Will Discuss Schedule I.

The committee of the Merchants Association, which has been looking into the matter of the tax schedules, met yesterday and considered the legal opinions upon the subject. After some discussion it was decided that a meeting of the Association be held on Monday afternoon at 3 o'clock, at which the entire subject of schedule I, be gone over and action determined. It is said that there will be a submission of the matter to the legislature at any event.
